

Polyester Splicing Tapes

Polyester splicing tapes feature a conformable silicone adhesive designed for superior bonding to a wide variety of substrates, including papers, films, pressure sensitive labels, decals, and foils. They are available in a variety of constructions to service every application need and can be slit 1/2 inch to 36 inches.

M741, M751, and M815 are 1 mil polyester films with medium tack and are the most economical choice for graphic arts applications. **M815** is clear for applications requiring transparency. **M824 and SP150-3** have higher tack for more demanding applications. **M832 and SP2150-3** are 2 mil backed polyester tapes. Both are used in the most demanding applications requiring ultimate adhesion strength and superior tensile strength. **SP1250-S** is a 2 mil self wound tape that will not lock-up upon itself.

Part Number	Color	Backing	Adhesive	Total	Tack	Adhesion
M741	Blue	0.001 in.	0.002 in.	3.0 mil	Medium	30 oz/in.
M751	Yellow	0.001 in.	0.002 in.	3.0 mil	Medium	30
M815	Clear	0.001 in.	0.002 in.	3.0 mil	Medium	30
M823	Blue	0.001 in.	0.0018 in.	2.8 mil	Medium	30
M824	Dark Blue	0.001 in.	0.0015 in.	2.5 mil	High	30
M832	Dark Blue	0.002 in.	0.0015 in.	3.5 mil	High	35
M835	Dark Blue	0.005 in.	0.0015 in.	6.5 mil	Medium	30
SP150-3	Red	0.001 in.	0.0015 in.	2.5 mil	High	30
SP2150-3	Red	0.002 in.	0.0015 in.	3.5 mil	High	30
SP2150-SYL	Yellow	0.002 in.	0.0015 in.	3.5 mil	Medium	30
SP2150-SCL	Clear	0.002 in.	0.0015 in.	3.5 mil	Medium	30

Features/Benefits:

- Excellent initial quick stick
- Cost effective
- Reduces telescoping of completed rolls
- Highly conformable
- Easy to apply
- Allows for a continuous manufacturing process

Andrew Roberts Inc. is a leading converter and fabricator of high performance coated fabrics tapes & belts. Our converting capabilities include:

Die Cutting - Slitting - Sheeting - Heat Sealing - Sewing
